Canine Boarding

Dogs are kept overnight in indoor runs that are 3.5' x 6' and have radiant floor heating. We also have six 6' x 6' runs for large dogs from the same family to share. During the summer, the kennel is cooled by an evaporative cooling system. We offer doggie daycare at an additional cost (see rates below). Non-daycare dogs will be outside several times per day in their own 8' x 8' outdoor exercise runs. We provide Science Diet Sensitive Stomach food for boarding dogs, but you are more than welcome to bring your own food and encouraged to do so should your pet be on a special diet. We do carry some prescription diets and can add food to your boarding visit if we need to provide the prescription diet food. Please feel free to bring toys, treats, and bedding to make your dog feel more comfortable. We will use our discretion on toys and treats to avoid choking hazards. **We require that ALL vaccines be current. Rabies vaccines must be current per Colorado law, distemper (DHPP), and bordetella (kennel cough) must be updated every six (6) months. Please call us to make reservations for boarding.**

Feline Boarding

Cats are kept inside the clinic in condos that are 1'8" x 2'2" and 2'x8" high. Each condo has a perch (shelf) and a porthole that can be opened so cats from the same family can share multiple condos. We provide litter, litter pans, bowls, and Science Diet food but you are more than welcome to bring your own food and encouraged to do so should your pet be on a special diet. We do carry some prescription diets and can add food to your boarding visit if we need to provide the prescription diet food. Please feel free to bring toys, treats, and bedding to make your cat more comfortable. **We require that ALL vaccines be current. Rabies vaccines must per current per Colorado law, FVRCP vaccines are required every one to three years. Please call us to make reservations for boarding.**
