

DOGGIE DAYCARE AT

Gunbarrel Veterinary Hospital is a great place for your pet to come to socialize and play! Gunbarrel Veterinary Hospital caters to all sizes and breed of dogs. Dogs are not separated into size groups, but rather separated by energy level. The Big Yard is for more active dogs, and the Sun Lounge caters to older or lower-energy dogs. Please keep in mind that the Sun Lounge is uncovered and therefore weather-dependent. If the Sun Lounge is not open, dogs may either enter the Big Yard or be brought inside where he/she will receive as much one-on-one attention as possible, or leashed walks on the property. If your pet needs a break from the yard, we will bring them inside for about 30-45 minutes. If you bring your own food, your pet can also take a break for lunch. We have dedicated daycare attendants who supervise the dogs in both yards at all times. We also have veterinarians on site in case an incident occurs which requires medical attention.

All daycare dogs must be up to date on rabies and distemper (DHPP) vaccines, and have been given a bordetella vaccine within the last six months. All dogs over nine months of age must be neutered or spayed.

Daycare is open Monday through Friday from 7:45 am to 5:45 pm. Reservations are not required, but we do ask that you call to check availability during holidays, when our facility is often at maximum occupancy.
